

Reference for Nanietta Selasie Agbitor

Selasie was a Newborn Care Specialist for our daughter from a few days old to 10 weeks old. She did a fantastic job caring for our daughter and getting her to sleep through the night. She cared for, fed, changed, and sleep trained our daughter, washed and sterilized bottles, helped with baby's laundry and nursery tasks, and more. She was very structured and methodical in helping our daughter progress and knew when our daughter was ready to stretch a little farther. She got to know our daughter and was closely attuned to her needs and development. She is very knowledgeable about newborns with lots of experience to draw from and, as new parents, that was really important to us. She always communicated what she was doing and what to expect. She had great suggestions on what to do during the day to set up the night for success. She always respected our family's desires for baby's schedule, but was clear about what would be best for baby and for our goal of her sleeping through the night. She knows babies and following her guidance, our daughter was sleeping through the night before 10 weeks. She had a few suggestions for products that I wasn't comfortable with, and when I expressed my discomfort, she respected that. She also had great product suggestions that I appreciated. Selasie is excellent at her job, is great with babies, and really has a knack for getting babies on a schedule. She worked really well with our other care provider including coordinating and planning to ensure continuity of care and to make sure everything flowed smoothly and baby kept progressing. She also did a thorough job logging everything in our app of choice and following along with other entries so she was always up to date on how things were going, even when she wasn't there, so she could provide the best care and never miss a beat. She's very personable, reliable, and engaging (and also great with our excitable doodle). She provided exceptional care for our daughter and we are so thankful to have had her help and absolutely recommend her!
