

As new parents, we wanted someone we could learn from as we encountered challenges and milestones. We also wanted someone who could tailor their care to our child's unique needs, especially in helping our baby sleep through the night. Selasie was our first and last interview because we knew she was a great fit, immediately.

We were fortunate to have Selasie as our Newborn Care Specialist for 8 weeks. In our quest for a gentle, caring, friendly, and engaging NCS, our top priority was ensuring that our precious baby was always in a loving and secure environment. Selasie possesses the perfect blend of soft skills and technical expertise that gave us the confidence to trust her with our baby. Selasie joined our family after just two nights at home from the hospital, and from that point onward, we operated as a team. Remarkably, by week 8, our baby girl was peacefully sleeping through the night, thanks to Selasie's guidance and support. We wholeheartedly recommend Selasie to anyone in search of a seasoned and highly skilled night nurse who not only ensures your baby feels cherished and secure but also operates as a true team player, consistently respecting and involving the parents in all decision-making processes. Selasie has been an invaluable addition to our family, and we are immensely grateful for her dedication and support.

Kendall G [REDACTED] S [REDACTED]

A handwritten signature in cursive script that reads "Kendall G. [REDACTED] S. [REDACTED]". The signature is written in black ink and is positioned below the typed name. The [REDACTED] areas correspond to the redacted parts of the typed name above.
